Program Theme

The theme of this year’s Annual Meeting is “Energies: Power, Creativity and Afro-Futures.” The theme statement reads as follows: For the annual meeting of the ASA in Atlanta (2018), we reflect on ‘energy’—its production, extraction, distribution and exchange—as a heuristic to understand Africa’s past and to imagine its futures. Energy has rich literal and metaphorical resonances in reference to extractive and entrepreneurial economic activities; the production of knowledge; human mobility and labor; performance, ritual and spirituality; and crime and social unrest. We call on scholars to explore the theme of energy, in both material and symbolic terms, and to reconceptualize dynamic fields of action in the economy, politics, culture, arts, and environment—across time and space, within the African continent and across its diasporas.

Regional and trans-national energy industries and other extractive undertakings have profoundly refashioned modern African landscapes. Petro-chemical industries, often allied with military and national security formations, have at times deepened economic inequality, posed threats to civil society and democratic institutions, and challenged environmental and human ecologies. At other moments, hydrocarbon-based systems have stimulated sociopolitical movements, catalyzed local entrepreneurship and even artistic creativity.

The notion of energy is also salient to historical explorations of contestations over human energies in African societies. Conference papers can explore attempts in both the colonial and post-independence contexts to contain the power of ordinary people and the ways that local energies—intellectual, entrepreneurial and creative—have broken bounds. How have hierarchical systems along axes of age, gender or social class been reproduced or contested in reference to the management of mobilities and labor? And how should we approach the political and developmental discourses about social and economic energy in varied African contexts? What, for example, is at stake in calls from state and non-state actors to mobilize or “harness” the energies of youth, women, and subaltern communities?

In today’s global environment, it is especially important to consider religion and associated restiveness, violence and insurrections through contributions to the study of faith-based resistance groups and radicals, their support structures, and the ways they affect bodies, lives, economies and polities. We also encourage historical and contemporary perspectives on spiritual energies in African cosmologies. How, for example, might lineage formations, masquerade societies, or sacred kingships be understood as elaborate rituals for transforming or redirecting the generative energies of the invisible worlds or ancestral forces? How, in turn, might rites of healing, prophecy, divination, or initiation be understood as efforts to restore or reorganize productive flows of energy within human bodies or within the body politic?

Related scholarship on visual arts, poetics, literature, music, dance, and other performance genres might explore ways in which local metaphors of energy and flow are drawn upon. And how is energy literally used as a medium, from bullroarers to neon art?

Proposals are also welcome on the dynamics of intellectual energies within the continent and across continental borders. In what respects should we conceive of coerced or voluntary migration as draining away intellectual energies, and when should we understand individual or collective translocal movement as productive of new knowledge flows? In what respects have new information technologies, including social media platforms, created alternative sites of intellectual creativity? One might explore,
for example, the mediating roles of handheld mobile devices and wireless networks in energizing local entrepreneurship or in configuring young people as active producers of knowledge instead of passive vessels into which knowledge is poured.

We are interested in the idea of youthful energy as a positive force for social change, but also in the attempts to constrain or co-opt the energies of young people. Can we think of crime and social unrest as expressions of the restless or unbounded energies of this and other social groups?

Resilience is an important theme in African lifeworlds. It constitutes the creativity of everyday life, evident in everything from the use of humor to make sense of the world to the development of ‘appro-tech’ (appropriate technologies) and bricolages as innovative responses to the vagaries of life.

Finally, we welcome explorations of, and reflections upon, energy and its metaphorical elaborations in domains not explicitly articulated in this call for proposals. What are the strengths and limitations of exploring African histories and fields of cultural production through the heuristic of energy extraction, distribution, and exchange?

WEDNESDAY, NOVEMBER 28

Pre-Conference Workshop (Professional Development) by Jess Achberger
Preparing for Fieldwork in Archives
Registration is required and limited to 15 registrants
Wednesday, November 28, 10:00am-4:00pm

This workshop is designed to help prepare graduate students (and others new to archival fieldwork) to conduct fieldwork in archives as a part of, or the whole of, their research. It is designed to give those beginning archival fieldwork confidence in their knowledge of archives and archival research, as well as sensitivity in the use of this material and in their interactions with its stewards. In the workshop, we will first seek to understand the archive and the archival profession, discussing what archives are, how they work, and the theory and methods behind the acquisition, processing, and accessibility of archival materials. Participants will then learn how to find archives, to search their holdings, and to read a finding aid, and tips will be given on how to request, use, and organize material once it is collected. The workshop will also include a session on digitized and open access archives (including a discussion on the pros and cons of these archives for scholars) and a final session on the ethics of archives, including strategies for how to partner and work side-by-side with the creators or stewards of the materials being used for research.

Facilitator: Jessica Achberger is African Studies Librarian, Curator of Africana Special Collections (inclusive of archives), and Adjunct Assistant Professor of History at MSU. As a historian, she has conducted fieldwork in Africa, Asia, Europe, and the United States, and as a trained archivist, she has worked on projects with archives and libraries in eastern and southern Africa. If you have any questions please contact Jessica by email at achberg2@msu.edu for more information.

Film screening of *The Wound* with Actor Niza Jay Ncoyini and Kenneth Harrow (Michigan State University and African Studies Review Film Review Editor)

Brimming with sex and violence, *The Wound* is an exploration of tradition and sexuality set amid South Africa’s Xhosa culture. Every year, the tribe’s young men are brought to the mountains of the Eastern Cape to participate in an ancient coming-of-age ritual. Xolani, a quiet and sensitive factory worker (played by openly gay musician Nakhane Touré), is assigned to guide Kwanda, a city boy from Johannesburg sent by his father to be toughened up, through this rite of passage into manhood. As Kwanda defiantly negotiates his queer identity within this masculine environment, he quickly recognizes the nature of Xolani’s relationship with fellow guide Vija. The three men commence a dangerous dance with each other and their own desires and, soon, the threat of exposure elevates the tension to breaking point. *The Wound* had its world premiere at the 2017 Sundance Film Festival, was the opening night selection of Berlinale Panorama, and won Outstanding First Feature at Frameline in San Francisco.

Women’s Caucus Luncheon and Lecture
Saturday, December 1, 12:45-2:00pm
Registration is required

Every year the Women’s Caucus of the African Studies Association brings a distinguished lecturer to speak at the Annual Meeting. The 2018 lecturer is journalist Minna Abiola Salami. Minna Salami is a Nigerian, Finnish and Swedish writer, blogger and speaker. She is the founder of the feminist blog, MsAfropolitan, which connects feminism with contemporary culture from an Africa-centered perspective. Referred to as “one of the key feminist voices of our times”, Minna is listed alongside Angelina Jolie and Michelle Obama as one of ‘12 women changing the world’ by ELLE Magazine. She is the author of Sensuous Knowledge (Zed/Harper Collins US), forthcoming in 2019. Through her blog, Minna is a frequently sought speaker at international platforms from the European Parliament to Yale University to the Oxford Union as well as the BBC, Channel 4 and Al Jazeera. Minna is a contributor to Guardian Opinion and writes a monthly column for the Guardian Nigeria titled “Gender Politics.” She has also contributed to The Observer, The Royal Society of the Arts Journal, The Independent, Al Jazeera and New Internationalist. She sits on the Editorial Board of The Interdisciplinary Journal for the Study of the Sahel. Her detailed bio is available here.

The synopsis of the 2018 lecture is as follows. From the myth of the goddess Asi of Liberia to women’s ritualistic use of the blue gemstone Lapis Lazuli in Kemet (Ancient Egypt) and the indigo blue Adire of Yorubaland, many historical African representations of the color blue as a powerful color are linked to the female sex. By contrast, in contemporary westernized global culture, blue as a powerful color is associated with the male sex. When a baby boy is born, a majority of products targeting him – cards, clothes, blankets, feeding bottles, toys, etc. – are blue. Africans have imported the latter narrative, but even in the western tradition, as the originally blue-clothed portrayals of the Virgin Mary show, the color blue has a more complex history. The talk will intertwine myth, history, culture, feminist theory, scientific research and personal observation for a new and fascinating exploration of the feminist principle that “gender is a construct”. It will show how we are deeply conditioned into our identities as male and female but also, within an African context, how we also are freer and less constricted to gender norms than is generally believed.

Important information about the procedures for applying a US B1/B2 Tourist visa is available on the ASA website. While the ASA has no control over the ability of participants to be issued a US visa, we provide advice on the best ways to approach your visa application. Please note that wait times for a visa
appointment, especially at some African consulates and over the summer, may be long and it is important to get an appointment as early as possible if you do not currently hold a US visa.

The ASA is closely following the US immigration situation in general, and, more specifically, with respect to the recent travel ban on citizens of specific countries, including several African countries. The ASA has published an advocacy statement speaking out against this ban, but as of the time of the publication of this program the ban has been reinforced by a Supreme Court vote.

For any individuals who are unable to attend due to a denial of a US visa, the ASA will allow the individuals to present their work remotely via skype or another suitable technology. Please note these arrangements will only be made for those showing documentation of their visa rejection and not in general.

ASA Annual Meeting App and Online Searchable Program
The ASA is excited to relaunch in 2018 the official ASA Annual Meeting App. This app, accessible from any mobile device, allows you to search for panels, papers, and special lectures of interest to you. The app also allows you to create a personalized meeting schedule, provide feedback on conferences sessions and post photos to the conference activity feed. You will be able to access, via the ASA website, an online searchable version of the program which is fully integrated with the mobile app. This will allow you to plan your session attendance via the web interface, and access your custom program on your mobile device. A link to the application will be provided on the ASA website in the summer of 2018.

HOST A PRESIDENTIAL FELLOW
Host an ASA Presidential Fellow at your institution in November 2018

The ASA Presidential Fellows Program was established in 2010 with the objective of inviting outstanding Africa-based scholars to attend the ASA Annual Meeting and to spend time at African Studies programs/centers in the U.S. The ASA has worked with the African Humanities Program (AHP) of the American Council of Learned Societies (ACLS) to identify scholars and to fund their visits to the ASA meeting. The AHP of ACLS nominates scholars to participate in the program, as do ASA members through a competitive application process. We invite institutions to apply to host one or more of the following individuals for up to a week prior or subsequent to the Annual Meeting of the ASA. The institution would be expected to cover the costs of domestic travel and the fellows’ stay at the host institution, including an honorarium. For more information, please contact the ASA secretariat (members@africanstudies.org). **Presenting at the Meeting**

Paper presenters must provide copies of their papers to the chair, other presenters in their session and the discussant two weeks in advance of the meeting. The emails of chairs and presenters are located in SSRN (see “How presenters can contact other presenters on the program” below for instructions on how to retrieve email addresses from SSRN).

**Guidelines for Panel and Roundtable Chairs**

- The chairs should write to the paper presenters in advance of the meeting to inform them of the time they are allotted for their presentation and to remind them to send papers to each other and the discussant(s).
- At the panel, the chair should briefly introduce him/herself to each panel/roundtable member before their session if they have not done so already.
- They should briefly introduce panel/roundtable members to the audience. They may wish to go over their planned introduction with each panel/roundtable member before the session begins.
- The chair should have the presenters proceed in the same order that they are listed in the program so that the audience members can plan their attendance accordingly.
- The chair should field audience questions during the time allotted for discussion, making sure those questioners who might be difficult for the panelists or roundtable participants to spot are noticed, and that the discussion moves along.
- The chair should conclude the panel/roundtable on time, and ensure that his/her group vacates the room at least 15 minutes before the next scheduled session.
Refund Policy
Annual Meeting pre-registration fee refunds will only be processed for: – an individual whose proposal has been declined, and only upon written request – an individual whose proposal has been accepted, and had requested a letter of invitation from the ASA, but has been denied a visa; proof of the denial must be provided. Requests for refunds should be sent to members@africanstudies.org, and must include your preferred mailing address. If you are a presenter listed on the annual meeting program but cannot attend due to a visa or immigration issue, the ASA will ensure your ability to present your work through another presentation format (skype, video conference, or an onsite colleague who will present your work on your behalf). Refunds for registration and membership will not be processed under any other circumstance.

Non-attendance/Withdrawals
Presenters should notify the Secretariat at members@africanstudies.org in writing as soon as possible if they are unable to attend the meeting. The information will be included in the Final Program or the Final Program addendum. Replacement presenters cannot be added after the Call for Proposals has closed.

“No Show” Policy
Your participation in the ASA Annual Meeting is a major commitment to your colleagues, to the African Studies community, and to the Association. Individuals may be seriously inconvenienced and disappointed when the attend sessions, only to find that persons they looked forward to hearing and seeing failed to appear. The Program Committee works hard to create a cohesive program and “no shows” detract from the success of the conference. Please avoid being a “no show,” since this may have implications for future acceptance to participate in the program. Those with medical or other emergency situations are exempted.

Access Policy
The African Studies Association is committed to ensuring that its services and meetings are accessible to all Africanists. If you have any special needs or require special assistance to participate in an ASA event, please contact members@africanstudies.org.

Graduate Student Prize
The ASA Board of Directors established the Graduate Student Paper Prize in 2001 to recognize the best graduate student paper presented at the previous year’s Annual Meeting. All papers presented by graduate students at the Annual Meeting are eligible for the prize, which is awarded at the subsequent Annual Meeting. The editors of the African Studies Review will coordinate an expedited peer review process for possible publication of the prize-winning paper. Graduate students may submit a pdf of their paper and a letter of recommendation from their adviser on or before April 30 of the year following the Annual Meeting (2019) to members@africanstudies.org.

The index is listed at the end of the program. Each panel and roundtable is labeled by a combination of a Roman numeral followed by a letter and a number. The Roman numeral indicates the session, hence the date and time of the panel. The letter corresponds to the section, and the number is simply a way of identifying the panel/roundtable within a session.
