

## Section 2: Recording and Usage Policy

### Keynote Lectures

Keynote events, such as the Hormuud Lecture, the ASR Distinguished Lecture, the Current Issues Plenary, or the ASA Presidential Lecture, will be posted to the ASA's YouTube page after the conference. Any discussions, questions, or other video recorded material from the keynote events will ultimately be available for public viewing.

### Annual Meeting Session Recordings

During submission, all submitters acknowledged the following statement: *I understand that all live sessions will automatically start recording when the room is opened, but I can choose to stop recording at the beginning or any other point in the session. If I allow the recording of my session I understand that the ASA will make it available in the membership portal for member access after the conference ends.*

If you allow the recording of your session, but decide later that you do not want it to be available to ASA members in the MyASA portal, you must send a written request copying all presenters requesting the recording to be withheld before the end of the calendar year (December 31, 2021) The ASA Secretariat will permanently delete the recording, preventing anyone from accessing it in the future, including the ASA Secretariat and leadership.

If you submit a pre-recorded session, you will have the option of making the recording available to A. in the membership archive, B. released on YouTube for public access after the close of the conference, or C. Both in the MyASA archive and on YouTube for public access.
